TECHNICAL SKILLS

Python, HTML, CSS, JavaScript, React, NextJS, Django, FastAPI, PostgreSQL, MySQL, Postman, Selenium, Git

WORK EXPERIENCE

Krispy Papi

Frontend Developer (Freelance) | March 2026 – Present

- Developed and maintained the frontend of a multi-branch ERP system, delivering a consistent and responsive user experience.
 - Implemented secure JWT-based authentication and RBAC by integrating with a Spring Boot backend.
 - Built reusable UI components, layouts, and API service layers to ensure a uniform interface, improve maintainability, and accelerate feature development.
 - Designed and developed user interfaces for enterprise modules including admin, branch management, inventory management, finance, and audits, supporting day-to-day operations across multiple business branches.
 - Implemented client-side caching and server state management using TanStack Query, improving application performance.
 - Developed a QR code validation feature to verify the authenticity of Krispy Papi supply orders.
 - Deployed and maintained the frontend application, including domain and subdomain configuration, production deployments, and application updates.
-
